TRAFALGAR-CLASS SUBMARINE - WIKIPEDIA

decoys of maritime canada pdf

Distributed Maritime Operations Topic Week. By Kevin Eyer and Steve McJessey. Origins and Implications. While the concept of Distributed Maritime Operations (DMO) may represent the major, new thrust in the Navy's warfighting thought, it does not arrive out of a vacuum.

Center for International Maritime Security

The Trafalgar class is a class of nuclear-powered fleet submarines (SSNs) in service with the Royal Navy, and the successor to the Swiftsure class.

Launched between 1988-1995, and commissioned between 1992-1996, Canada's 12 City Class (now Halifax Class) frigates currently form the high end of its naval capabilities.

Modernizing Canada's Halifax Class Frigates

The Halifax-class frigate, also referred to as the City class, is a class of multi-role patrol frigates that have served the Royal Canadian Navy since 1992.

SSDS uses software and commercial off-the-shelf (COTS) electronics to turn incoming data from several systems (radar, radar warning receivers, combat identification, electro-optics) into a single picture of prioritized threats.

SSDS: Quicker Naval Response to Cruise Missiles

A model of ST Marine's Fearless 75 design on display at Pacific 2015 in Sydney. ST Marine has already built smaller Fearless 55's for the Singaporean Navy.

Offshore Patrol Vessel (SEA 1180) CEP occurring right now

Size does matter and so does range and speed whenever anyone talks about weapons. It seems that there is a great deal of confusion which perpetuates itself in regards to a relatively small Russian military contingent in Syria.
