The name itself - Swan 65 - is an icon in and beyond the sailing community. It evokes beauty, comfort, reliability, but also the power to win the most important regattas in the world, even with the most luxurious interiors and the most complete cruising equipment.

Swan 65 - Nautor's Swan

The extract above specifies various survey level categories of vessels based on the risk factors. Survey cycles-The periodic survey inspections of a vessel shall be arranged in survey cycles of 5 years as shown in the extract below from Table E1 (for vessels determined as level one).

Auxiliary equipment and systems for marine engine drivers

The British Mark V tank was an upgraded version of the Mark IV tank. It was first deployed in 1918, used in action during the closing months of World War I, and in the Allied intervention in the Russian Civil War on the White Russian side, and by the Red Army, after they were captured. The tank was improved in several aspects, chiefly the new ...

Rail terminology is a form of technical terminology. The difference between the American term railroad and the British term railway (also used by other English-speaking countries outside the US) is the most obvious trans-Atlantic difference in rail terminology (see usage of the terms railroad and railway for more information).
