Deduction, Computation, Experiment: Exploring the

Deduction, Computation, Experiment: Exploring the Effectiveness of Proof. Rossella Lupacchini, Giovanna Corsi. What is a proof for? What is the characteristic use of a proof as a computation, as opposed to its use as an experiment? What is the relationship between mathematical procedures and natural processes? The essays collected in this volume address such questions from different points of ...

Deduction, Computation, Experiment: Exploring the

This volume is located in a cross-disciplinary field bringing together mathematics, logic, natural science and philosophy. Reflection on the effectiveness of proof brings out a number of questions that have always been latent in the informal understanding of the subject.

Deduction, Computation, Experiment: Exploring The
