Cities and urban areas are facing a strong adaptation imperative. • Spatial planning can support proactive cross-cutting urban adaptation. • Adaptation would benefit from ‘repositioning’ to emphasise links to core urban agenda.

## **Climate change and the city: Building capacity for urban**

It is strongly believed that developing more sustainable cities is not just about improving the abiotic and biotic aspects of urban life, it is also about the social aspects of city life, that is—among others—about people’s satisfaction, experiences and perceptions of the quality of their everyday environments (see also Beer, 1994).
