4 Other risks. The types of risk introduced by an institution's decision to use a third party cannot be fully assessed without a complete understanding of the resulting arrangement.

GUIDANCE FOR MANAGING THIRD-PARTY RISK Introduction

In commerce, a "third-party source" means a supplier (or service provider) who is not directly controlled by either the seller (first party) or the customer/buyer (second party) in a business transaction. The third party is considered independent from the other two, even if hired by them, because not all control is vested in that connection.
