1 Signs of nutrient deficiency Healthy plants A healthy plant is characterised by good size, deep green leaves and good all round development. The plant should look vigorous and healthy at all stages of its development, with evenly coloured

Signs of nutrient deficiency - The Royal Society of Chemistry

Annual Flowers & other Bedding Plants. Annuals generally germinate, flower, set seed and die within a single year. Some species may survive more than a year under favourable conditions (i.e. short-lived perennials), but are treated as annuals for the purposes of producing spectacular displays, and discarded after they've passed their prime.
