### CARGO HOOK (HELICOPTER) - WIKIPEDIA

### **utility and cargo helicopter pdf**

A utility helicopter is a multi-purpose helicopter. A utility military helicopter can fill roles such as ground attack, air assault, military logistics, medical evacuation, command and control, and troop transport. Some overlap of terminology is inevitable with transport helicopter.

### **Utility helicopter - Wikipedia**

A cargo hook is a device suspended below a helicopter and allows the transport of external loads during flight. Common terms for this operation include slingwork, underslung loads, external loadwork, and external load operations.
