CHAPTER 4 Research Methodology and Design 4.1 Introduction All research is based on some underlying philosophical assumptions about what constitutes 'valid' research and which research method(s) is/are appropriate for the development of knowledge in a given study. In order to conduct and evaluate any research, it is therefore important to know what these assumptions are. This chapter discusses ...

CHAPTER 4 Research Methodology and Design

The target group of the workshop are scholars with an interest in the relationship between knowledge production and policies in the fields of lifestyles and public health. Idea paper submission: Participants are encouraged to submit idea papers of 1–3 pages.
