A leveraged buyout (LBO) is an acquisition of a company or a segment of a company funded mostly with debt. A financial buyer (e.g. private equity fund) invests a small amount of equity (relative to the total purchase price) and uses leverage (debt or other non-equity sources of financing) to fund the remainder of the consideration paid to the ...

Valuation encompasses far more than the practice of estimating the financial value of environmental services and changes. It extends to almost any socio-political process in which local actors seek to shape the development of their places and environments by describing what matters about these places.
