Introduction for Air-Conditioning Systems Types, Introduction for Types of Motors/Compressors used in Air-Conditioning Systems. And in Article " Electrical Wiring Diagrams for Air Conditioning Systems – Part One", I explained the following points:

Electrical Wiring Diagrams for Air Conditioning Systems

4 GTS® AND GTS-DI HUMIDIFIERS GTS Gas-to-Steam Humidifier This humidifier is designed to be used with either softened or unsoftened water. (Softening is

This manual must be left with the owner and should be

A heating, ventilating and air-conditioning (HVAC) system is a simple system of heating and cooling exchangers using water or refrigerant (direct expansion system) as the medium.

Electrical Wiring Diagrams for Air Conditioning Systems

Building automation is the automatic centralized control of a building's heating, ventilation and air conditioning, lighting and other systems through a building management system or building automation system (BAS).

Building automation - Wikipedia

A fan is a powered machine used to create flow within a fluid, typically a gas such as air. A fan consists of a rotating arrangement of vanes or blades which act on the air.
