The word vegetable was first recorded in English in the early 15th century. It comes from Old French, and was originally applied to all plants; the word is still used in this sense in biological contexts. It derives from Medieval Latin vegetabilis "growing, flourishing" (i.e. of a plant), a semantic change from a Late Latin meaning "to be ...

### **Vegetable - Wikipedia**

Vegetable farming is the growing of vegetables for human consumption. The practice probably started in several parts of the world over ten thousand years ago, with families growing vegetables for their own consumption or to trade locally.

With the cooler fall weather upon us, it's time to get outside and prepare your garden for the onset of a Canadian winter. Maybe you haven't spent that much time in the garden over the past few weeks, with kids going back to school, or you have managed to get away and spend some time off at the cottage, but there are a lot of little tasks that ...
